

COMMUNICATE IDEAS WITH GREAT GRAPHS

MTH250 • 2 Credits

DESCRIPTION: Use the “grammar of graphics” to create elegant and engaging graphs to communicate ideas. Foundational principles will be emphasized so that you can make any graph you can imagine. Examples will be from the environmental, natural resources, and social sciences; business; and sports.

PRE-REQUISITE: MTH107 or a simple familiarity with R (contact instructor about a short tutorial).

WHO SHOULD TAKE: Students interested in mathematics, statistics, data science, computer science, or graphic design or those that are interested in graphically presenting data to scientists or the public.

WHEN: “On-line” during May term 2020; Mon, Wed, & Fri 4-6 pm.

CONTACT: DEREK OGLE (dogle@northland.edu)
